

.45 AUTO-RIM

M. C. Smokeless

NO CLIPS

THE inconvenience of using clips with the .45 Colt Automatic Cartridge when used in revolvers is now eliminated by Peters .45 Auto-Rim Cartridge. In line with its policy of incorporating improvements that are improvements in ammunition, The Peters Cartridge Co. now produces the .45 Auto-Rim:—the same cartridge as the .45 Colt Auto, but with a rim,—a distinct advantage which will be appreciated by those who have thus far found it necessary to insert the Automatic Cartridge in clips before loading the revolver. Peters .45 Auto-Rim can be ejected after firing without the use of clips.

Price per thousand \$52.50 (Same as .45 A. C. P.)

Packed 50 in a box, 2000 in a case.

Adapted to 1917 Models Colt and S. & W. Revolvers, chambered for .45 A. C. P. Cartridges with clips.
