SAYS "DOC" PETERS

- 1** NEW FLAT-TOP CRIMP eliminates cardboard top wad, ends "blown" patterns...gives extra effective yardage.
- 2** TOP SEAL controls confinement and rate at which powder burns. Gives ideal pressure build-up, maximum uniformity of velocity!
- 3** SPECIAL ADHESIVE on flat-top seal improves waterproofing, holds ruptured seal to shell after firing.
- 4** "WATER-TITE" body. Special gas-tight wadding, uniform shot size, shot count.
- 5** NEWEST SMOKELESS POWDER. "RUST-LESS" non-corrosive priming. Speed-intensity ignition, minimum recoil.
- 6** RESILIENT head of finest quality brass. Easy extraction.

'HERE'S HOW PETERS 'VICTOR' TRAP and SKEET LOADS END BLOWN PATTERNS and GIVE EXTRA YARDAGE'

"The foremost development in shot shell ballistics in 82 years!"

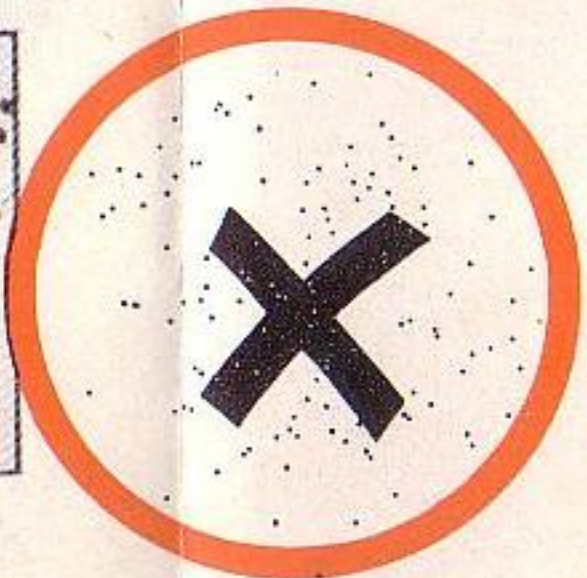

"THERE'S NO MARGIN for 'bad luck' in your shooting when you use Peters Victor trap and skeet loads with the NEW FLAT-TOP CRIMP! For these great shells are especially designed to eliminate the top wad, END 'BLOWN' PATTERNS! The shot charge smashes targets without interference, without annoying 'confetti'. You get extra effective yardage! And you get uniform patterns that assure you broken targets — at all angles shooting skeet, and at any handicap distance shooting trap! When you buy trap and skeet loads, specify PETERS VICTOR with the NEW FLAT-TOP CRIMP."

The FLAT-TOP CRIMP makes the difference!

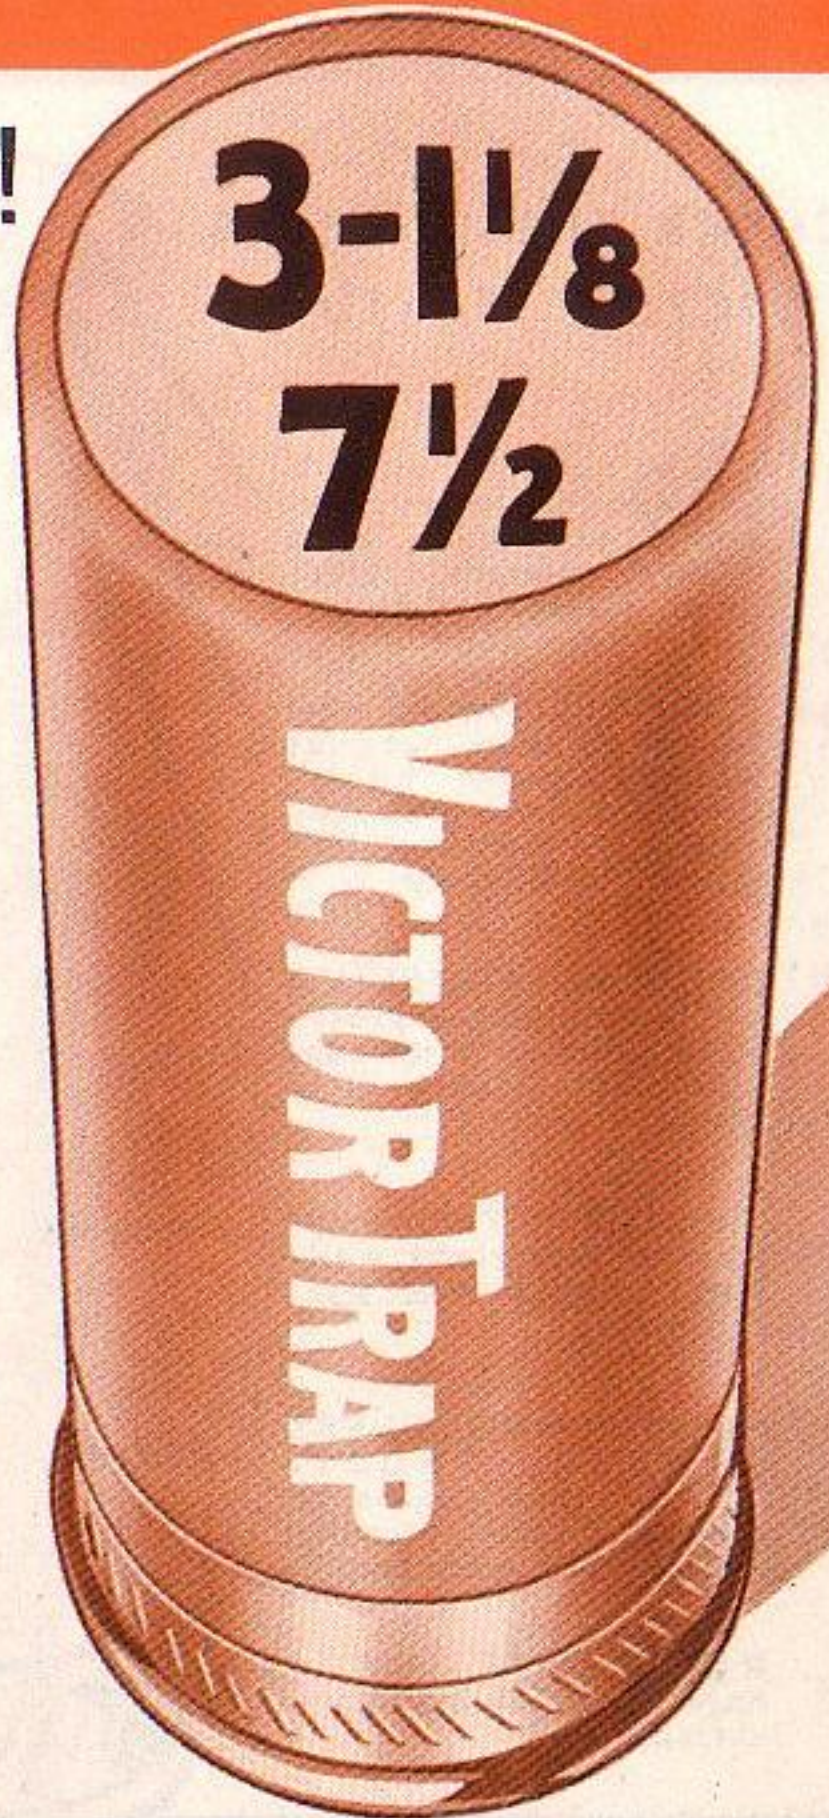

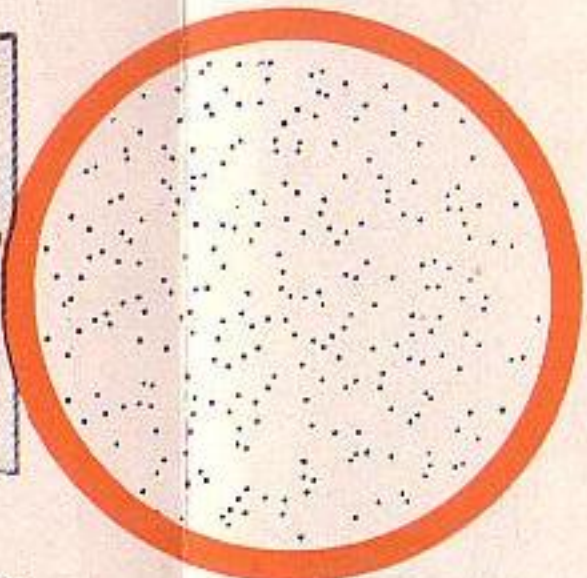

OLD TYPE CRIMP

In ordinary shells with old-type crimp, the top wad often obstructs shot charge, as shown in spark photo above. Resulting pattern (circle) shows *spotty distribution* of shot pellets that easily may cause misses.

NEW FLAT-TOP CRIMP

The new crimp eliminates the top wad. Thus shot column is unobstructed, as shown in this spark photo. Result — a perfect pattern with no gaping holes.

FLAT-TOP CRIMP ELIMINATES THE TOP WAD

<p>MOUTH OF SHELL is crimped; then ironed down so there is</p>	<p>NO TOP WAD to obstruct the shot charge. Special crimp is then</p>	<p>WATERPROOF-ED with patented seal fixed by a special adhesive that</p>	<p>ADHERES TO SHELL as gun is fired. There's nothing to obstruct shot charge.</p>
