

"HIGH VELOCITY" SHELLS IN .410 GAUGE

ARE IDEAL FOR DUVROCK SHOOTING!

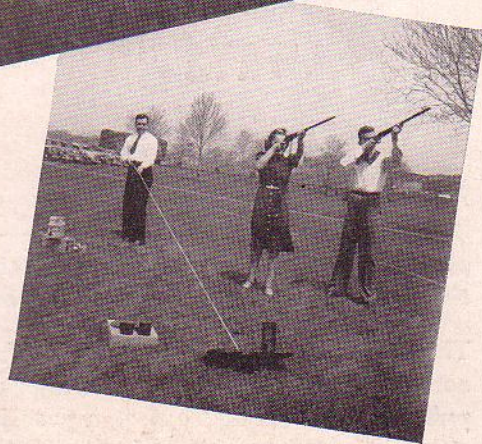

If you want a real test of your skill over the Duvrock Trap — "hold" on those flying targets with a sassy little .410 or 28. But whatever gauge your pet gun is, give it a break with the finest ammunition money can buy! . . . Peters "High Velocity" or "Victor" shells. Here's "Ammunition That Inspires Confidence!"

High Velocity, Victor are Reg. U. S. Pat. Off. by Peters Cartridge Division, Remington Arms Co., Bridgeport, Conn.

THE PETERS DUVROCK TRAP

TRAPSHOOTING WHEREVER YOU GO

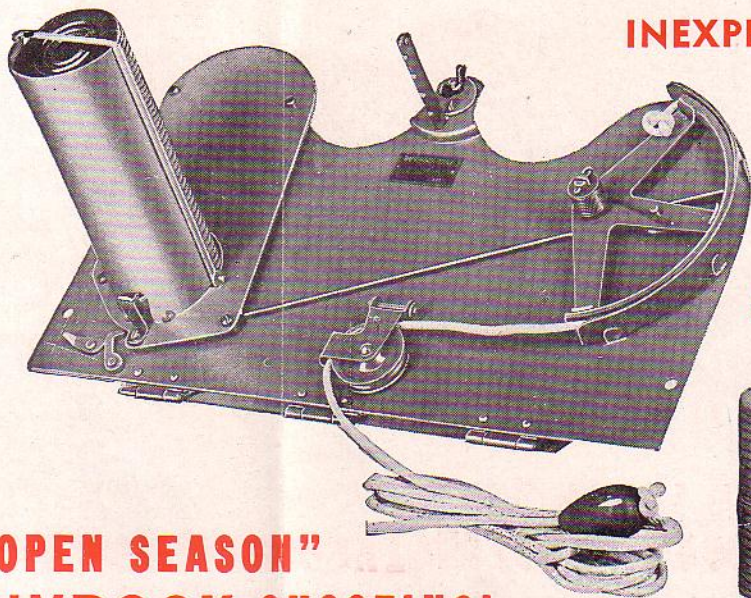

THE DUVROCK TRAP

LIGHT

COMPACT

INEXPENSIVE

Here's an automatic, portable trap that's popular all year 'round! It's ideal for practice shooting or instruction in regulation skeet, trap and field shooting. It is especially made for the practical shooter, for the hunter who is anxious to get the most out of his few days of game shooting.

PRICE
\$10.00

IT'S ALWAYS "OPEN SEASON" FOR DUVROCK SHOOTING!

And the Duvrock can go anywhere you go! Shoot as much as you like, any time you like. It is light — compact — weighs only 12 pounds packed. A carton of 500 targets weighs only 37 pounds. Slip them into your car and drive off for some snappy shooting.

The Duvrock repeats 43 targets without reloading, as fast as the cord is pulled. Throws them as high or as low as you like. A slow pull sends the "bird" out at a pace just right for the beginner; a quick jerk whizzes it out fast enough to challenge the expert.

Duvrock targets are less than a cent apiece! These small, fast-flying "birds" come to you carefully packed in a carton to insure them against breakage. You can buy 500 of them for only \$3.75 — actually less than a penny apiece. That's a lot of sporty shooting for so little!
