SHOT SHELLS AND

RIFLE, REVOLVER and PISTOL CARTRIDGES

FIREDAMS

REMINGTON ARMS COMPANY, Inc.
25 BROADWAY
NEW YORK, N. Y.
New York, N. Y., January 2, 1931

The prices shown in this booklet are the suggested net wholesale selling prices for

Remington
Kleanbore

Shot Shells and Metallic Cartridges
at our authorized jobbing points.

The suggested schedules for the various jobbing points are denoted by the symbols shown after each group. The letter represents the schedule for Loaded Shells. The figure represents the schedule for Metallic Cartridges. For instance, Montgomery, Alabama, takes the M schedule on Loaded Shells and the number 2 schedule on Metallic Cartridges. Net selling prices for loaded shells are shown after each load combination and the same system is followed on metallic cartridges. This plan is most convenient for the salesmen as it avoids the necessity of having to refer to a different section of the booklet for net prices.

If necessary to equalize freight to meet competition, such equalization should be made on the basis of the competing equalizing point plus the less than carload rate of freight from such point to dealer’s shipping point.

The increasing use of automobile trucks for delivery purposes, makes it necessary to suggest that when deliveries of loaded shells and metallic cartridges are made by truck, the dealer should be charged an amount equivalent to the less than carload rate of freight which the dealer would pay if shipment were made by freight.

This list supersedes all previous issues.

REMINGTON ARMS COMPANY, Inc.

Wholesale Prices on Loaded Shells and Metallic Ammunition subject 10% discount

New Simplified KLEANBORE Game Loads

REDUCE STOCK INVESTMENT
SAVE SHELF SPACE
QUICKEN TURN-OVER
INCREASE PROFITS
MAKE SELLING EASIER
MAKE BUYING EASIER

The outstanding success of REMINGTON GAME LOADS since their first introduction nearly ten years ago has prompted many in the Trade to urge a still further step toward simplification. A thorough canvass of the field clearly indicates that one carefully selected load in a full range of shot sizes, 4 to 10, chilled or soft shot, meets every practical game requirement. The one possible exception is in the case of the heavy long range loads, which can be obtained in the Remington Kleanbore Nitro Express Brand.

Remington Kleanbore Simplified Game Loads cover the entire needs of the country with the best balanced, most uniform, all-round loads for game shooting. There are but two list prices, chilled and soft shot, for each gauge—12, 16 and 20 Gauges—in shot sizes, 4, 5, 6, 7, 7½, 8, 9, 10, chilled or soft shot.

The new Kleanbore Simplified Game Loads will be furnished in green shells, in green colored boxes, as depicted in the illustration. The front panel of the box pictures in full color the various kinds of game. The rear panel shows the recommended sizes of shot for each kind of game. The bottom panel tells what Kleanbore is. Guesswork is out of the picture. Error in selecting wrong combinations or shot sizes is eliminated. In Simplified Game Loads there is only one load for each gauge. See how easy it is to write up orders for—

12 Gauge Remington Kleanbore Game Loads (add size of shot and indicate chilled or soft)
20 Gauge Remington Kleanbore Game Loads (add size of shot and indicate chilled or soft)

Etc.

That is all there is to it.

In an important trapshooting tournament the REMINGTON TRAP LOAD (Nitro Club) adds that extra dead bird or two which means victory instead of second place. That is why they are preferred by Champions. The REMINGTON TRAP LOAD is the most uniform in pattern, velocity, penetration, and recoil. Kleanbore prevents rust, corrosion, pitting; cuts down leading; improves pattern.

The SHUR SHOT TARGET LOAD ranks high in the opinion of the trapshooters. The quality is second only to the Remington Trap Load (Nitro) and there is the advantage of a lower cost. The SHUR SHOT TARGET LOAD is the most popular low price shell on the market for the traps and the lowest price shell with the Kleanbore feature.

New The Remington Kleanbore HANDICAP TRAP LOAD (Nitro Club) COPPERED SHOT for distance shooting.

*Choice of DuPont or E.C. Powder

**Loaded with Progressive Burning Powder**
REMINGTON KLEANBORE SKEET LOADS in the Nitro Club brand are the only shells on the market especially adapted for Skeet shooting. Each box contains 19 regular loads (Green colored shells) and 6 Skeet Scatterloads (Brown colored shells). The improved loads are now furnished in 9 chilled shot both Scatterloads and regular loads in 12-16 and 20 gauge.

Scatterloads are for use on single targets at station 8 (average range 5½ yards) and incoming doubles at stations 1-2-6-7 (average range 12 yards). Regular loads for all other targets. REMINGTON KLEANBORE SKEET LOADS are ideal for the field. The Scatterloads will bring down many a bird in the brush at close range that would be lost or mutilated with the regular load.

NEW SHUR SHOT KLEANBORE SKEET LOAD

Remington Kleanbore SHUR SHOT SKEET LOADS are now available. While they have not the advantage of Scatterloads they are well balanced loads in 12-16 and 20 gauges, all supplied in No. 9 chilled shot. SHUR SHOT SKEET LOADS combine high quality at a low price.

| Length of Case | Weight per Shell | Name of Load | Shot Sizes | List Price per 1000 |

| 20 2½         | 45             | Shur Shot Skeet Load | 9 Ch. | 41.50 |

Skeet is the new sport that provides wing shooting at all seasons. It is an inexpensive form of trapshooting. Skeet appeals particularly to the hunter because it provides the year round a variety of shots at clay birds that one ordinarily finds in field shooting. Booklet on forming a Skeet Club or circular on Remington Skeet Loads sent upon request.
KLEANBORE ARROW EXPRESS LACQUERED SHELLS are especially popular with the duck hunter. Particularly effective for long range shooting. The brilliant glossy green finish gives a striking appearance to the shell and adds greatly to protection against water and moisture. The lacquer completely seals the top wad and crimp. Under the most adverse conditions, crimp remains hard and even, without brooming out, flattening or swelling.

KLEANBORE ARROW EXPRESS LACQUERED SHELLS are designed especially for the discriminating sportsman who wants something different—who insists on getting the very finest in a shotgun shell. ARROW EXPRESS has a high brass base and is the longest range load with maximum powder and shot charge. Loaded only with the finest progressive burning smokeless powder.

Remington

KLEANBORE SHUR SHOT SHELLS

This year the KLEANBORE feature in SHUR SHOT SHELLS will add new impetus to the steadily increasing demand for this high quality smokeless powder shell at a low price. SHUR SHOT SHELLS have all the important features, including the finest materials and the famous No. 33 Primer with Battery Cup. They are completely wetproofed—top wad, crimp and body—by the Remington exclusive waterproofing process.

As in our other brands, KLEANBORE SHUR SHOT SHELLS will be furnished in a distinctive green colored shell with the name KLEANBORE stamped on every shell. SHUR SHOT SHELLS for game shooting and for target shooting insure satisfied customers and build a permanent and steadily increasing volume of business.

Remington

Nitro Club Shells—Specified Loads

Scatterloads only are Kleanbore

Sportsmen everywhere are being won over by the superior qualities of Remington Game Loads and Nitro Express Shells (see pages 6-13). Some shooters, however, still continue to order the old type loads and will continue to do so until they know the advantages of Remington Game Loads. It is up to you, Mr. Salesman, Mr. Dealer, to tell your customers about the better Remington Game Loads. Game Loads and Nitro Express Shells simplify your shot shell business and increase profits.

A complete list of the standard specified loads are shown on the following pages.

The Remington Nitro Club Scatterload makes the same pattern at 25 yards that the ordinary load makes at 40 yards. Ideal for hunting in the brush and for close range work. Especially recommended for field shooting when full choke guns are used. Will prevent unnecessary mutilation of game. Place a case or two of these loads with every customer.

Supplied in 12, 16 and 20 gauges soft or chilled shot.
## REMINGTON “NITRO CLUB” SPECIFIED WETPROOF SHELLS (Not Kleanbore)

Loaded only with standard American brands of Smokeless Powder. Powder brands will not be shown.

---

### New Club

New Club black powder shells have stood the test of time for nearly a half-century. They hold undisputed leadership among shooters who still use black powder shells. Especially popular in the Southern States.

New Club shells are sure fire and will bring home the game. Completely Wetproofed,—top wad, crimp and body, by the special Remington patented process.

New Club shells have not the Kleanbore feature.

---

### Red Top Air Rifle Shot

5¢ PACKAGE—ACTUAL SIZE

Contains 2½ oz. of specially selected lead shot, highly polished, uniform in size. Packed in attractive two-colored, high-quality package.

Sell the Popular 5¢ Package

Red Top also sold in 4-oz. tubes.

Prices on Application

### 50% Greater Power

LEAD LUBRICATED OR SILVADRY BULLETS

- Kleanbore—Increase your sales with the additional line of Hi-Speed .22's with Lead Lubricated or Silvadry bullets.

- Sell them both—Leads Lubricated bullet for finest accuracy; Silvadry bullet for cleanliness in handling or carrying loosely in the pocket.

### KLEANBORE HI-SPEED FEATURES

- **SILVADRY Bullet**—Exclusively Remington—for cleanliness.
- **Greater Power**—Hi-Speed Kleanbore .22's average 50% greater smashing bow—some as high as 80%.
- **Greater Velocity**—Hi-Speed Kleanbore .22's average 35% greater velocity—some as high as 60%.
- **Longer Range**—Greater B forking Energy—Greater Accuracy and Flatter Trajectory over longer range.

- Patented Kleanbore Hi-Speed Priming Mixture—Here is where there can be no imitation without infringement. There is no priming mixture which compares with Hi-Speed Priming Mixture.
- **Brass Shell**—Stronger—built for increased power and speed—with safety. The same material as used in high power Big Game and Military Cartridges. Remington Kleanbore Hi-Speed .22's are the only .22's with a brass case.

Regular Kleanbore .22's at the lower price will continue to be supplied.

*Remington Metallic Cartridges hold every world record for rifle shooting from 100 to 1200 yards*
### Remington Kleambore Center Fire Shot Cartridges

**Talk Rem Points**

Remington shot cartridges are very effective against pests around the farm. Wooden ends on certain sizes permit use in repeating rifles and protect rifling against feed fouling.

KLEANBORE TRAP LOADS

DISTINCTIVE GREEN SHELLS in GREEN COLORED BOXES

**THE REMINGTON KLEANBORE TRAP LOAD** gives
the maximum of performance at the traps. There is no
better shell for the trapshooter who wants the best the
market affords. The many important tournaments and
championships, won every year, offer the most conclusive
proof of superiority and popularity of Remington Trap
Loads. Loaded in the famous Nitro Club Shell on the
Game Load principle which fuses the most uniform
shooting qualities with regard to pattern, velocity, pene-
tration and recoil.

**New REMINGTON HANDICAP TRAP LOAD**
Kleanbo—Coppered Shot

---

**KLEANBORE SHUR SHOT TARGET LOAD**
Trapshooters are the most discriminating and exacting
of sportsmen. Remington Kleanbo Shur Shot Target
Loads have gained their tremendous popularity only after
actual use, critical observation and approval by an ever
increasing number of enthusiastic users. Champions
recognize this Remington achievement of a high quality
shell at low cost.

Stock up now for the trapshooting season with
**REMINSTON KLEANBORE TRAP LOADS**
which prevent rust, corrosion, pitting and leading.
