### Remington Recommended Shot Size

<table>
<thead>
<tr>
<th>Game</th>
<th>Shell</th>
<th>Shot Size</th>
<th>What Experienced Hunters Say...</th>
</tr>
</thead>
<tbody>
<tr>
<td>Deer, Wolf, and Black Bear</td>
<td></td>
<td>Rifled Slug &amp; Buckshot</td>
<td>“Express” rifled slugs are effective up to 100 yards. For deer and black bear 12 and 16 gauge slugs are the best. 00 Buckshot are the most popular sizes for deer hunters who use buckshot.</td>
</tr>
<tr>
<td>Fox</td>
<td></td>
<td>BB, 2</td>
<td>It's a toss-up between BB's and No. 2 shot. But remember — the smaller the shot, the denser the pattern.</td>
</tr>
<tr>
<td>Goose and Turkey</td>
<td></td>
<td>BB, 2, 4</td>
<td>Goose and Turkey hunters need壁纸 up to fold up their birds so they use the big loads with large shot. Choice of shot depends on range. Use BB or 2's when you're reaching out, 4's when the birds are closer.</td>
</tr>
<tr>
<td>Ducks</td>
<td></td>
<td>4, 5, 6</td>
<td>Use No. 4 shot for long range and pass shooting. For normal range — No. 5 or No. 6 shot while some hunters use No. 7½ shot for closer range shooting over decoys.</td>
</tr>
<tr>
<td>Rabbits</td>
<td></td>
<td>4, 5, 6</td>
<td>For cotton tail rabbits at normal range, Remington “Shur Shot” is suitable, but for large game such as jack-rabbits and snow shoe rabbits use “Express”.</td>
</tr>
<tr>
<td>Squirrels and Pheasants</td>
<td></td>
<td>5, 6</td>
<td>Here again, range is the deciding factor. For pheasant rising over dogs, No. 6 is the favorite. When squirrels are in tall heavy timber use 5's to deliver the goods.</td>
</tr>
<tr>
<td>Grouse or Partridge</td>
<td></td>
<td>5, 6, 7½, 8</td>
<td>On the smaller birds such as ruffed grouse or Hungarian Partridge use the smaller shot. The big western grouse (sage, scoty, and blue) call for heavier load and large shot.</td>
</tr>
<tr>
<td>Doves and Pigeons</td>
<td></td>
<td>6, 7½, 8</td>
<td>You can do a good job on morning doves at normal ranges with Remington “Shur Shot” and No. 7½ or No. 8 shot — but for longer ranges use “Express” and No. 6 or No. 7½. Use the same load on bank-tailed pigeons and white wings.</td>
</tr>
<tr>
<td>Quail, Rail, and Woodcock</td>
<td></td>
<td>7½, 8, 9</td>
<td>Lighter shot, such as 9’s, will prove effective in most cases, and cause less meat spoilage. If birds are extra wary, or if cover is thick, try the larger pellets.</td>
</tr>
</tbody>
</table>

### Interchangeability Chart

<td>38-44 Winchester</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** High Velocity, Hi-Speed Cartridges must not be used in revolvers. They should be used only in rifles made especially for them. Exceptions: items marked (*) are designed especially for the 38-44 Smith & Wesson Revolver and the 28-44 Shooting Master. Pressure of these two cartridges is safe for lighter guns, but any recoil is likely to be more unpleasant and the frame may be shaken loose in time.

**Note A:** Not for use in revolvers chambered for 32 Smith & Wesson or 32 Smith & Wesson Long.

**Note B:** All 38 Special cartridges can be used in 357 Magnum revolvers but not conversely.

*These are identical in length, priming mixture and weight of charge.
AMERICA'S MOST POPULAR
TRAP and SKEET EQUIPMENT

NEW REMINGTON
SQUARE SHOULDER "BLUE ROCK" TARGETS
Ideal for Any Trap

NEW DESIGN! The new Remington square shoulder "Blue Rock" has weight
where weight belongs! Dome of target is thin, rim is heavier, giving greater stability,
more spin. More pronounced shot rings on dome catch shot — targets break easier
when hit by only a few pellets. All adding up to higher scores!

NEW REMINGTON AUTOLOADING TRAP
Labor-saving (no trap boy needed) ● Large capacity (203 targets) ● Easy loading,
stack at a time ● No tools required ● Connects to 110 volt wiring system
● Makes commercial gun clubs profitable!

MODEL 100T FOR TRAP
1 Remington autoloading trap with ½
HP motor, 60 cycle, 115 volts, and special
auto-angling base. 1 push button release
unit with 100 feet of wire. 1 power
control box.

MODEL 2005 FOR SKEET
2 Remington autoloading traps with ½
HP motors, 60 cycle, 115 volts. 1 walk
around release unit and 70 feet of wire.
2 power control boxes. 1 connection
box.

REMINGTON "EXPERT" TRAP
A strong, lightweight, sturdily built portable trap. Smooth operating. Just right
for use at summer camps, cottages, aboard boats, or for trips into the country.
Fine for "walk up" shooting games.

REMINGTON "WONDER" TRAP
For straight trap and skeet. Tested in service... proved in practice. "Wonder" trap
meets every requirement. Less vibration, automatically "sets" itself. Instant adjustment.

REMINGTON "WONDER" TRAPS FOR SKEET SHOOTING
Two Remington "Wonder" traps with Remington's exclusive Singlelever manual control, all other
accessories. Also Remington Electric release.

REMINGTON "BLUE ROCK" TRAP
For straight trap and skeet. Throws either doubles or singles. Ideal for small clubs or private estates. Available
also as complete skeet outfit: 2 "Blue Rock" Traps and Remington's exclusive Singlelever Pull for manual operation.

REMINGTON AUTO-ANGLING TRAP
The Remington Model 41 Auto-Anangling trap for straight trapshooting gives 72 angles
of perfect target flight — all different, all automatic. Fast
cocking, loading, releasing. Simple, dependable design.
Easily adjustable for manual angling or doubles.

REMINGTON ELECTRIC SKEET RELEASE
Consists of Release Unit, Connection Box, 2
Solenoid Units and Accessories. For conversion
of manually operated Remington "Wonder" Skeet Outfits to electrical operation.

MANUAL RELEASE FOR "WONDER" OR "BLUE ROCK" OUTFITS
Simple to attach and easy to use, the Remington Singlelever Pull is especially designed
for manual operation of the "Wonder" Skeet Outfit. Easily and quickly converted to electric
operation.

Express, Blue Streak, Kleenbore, Targetmaster, Core-Lite, Rocket, Blue Rock, Wonder, and Expert are Reg. U.S. Pat. Off.; Hi-Speed is a trade mark of Remington Arms Company, Inc., Bridgeport 2, Conn.
## Remington Traps and Skeet Equipment

### Export Prices

**Remington “Blue Rock” Targets**
